

Carindale Property Trust

2018 Tax Return Guide

This document does not constitute financial product or investment advice. In particular it is not intended to influence you in making a decision in relation to financial products. You should obtain professional advice before taking any action in relation to this document, for example from your taxation or other professional adviser.

1. Important Information for Australian Resident Members Completing a 2018 Tax Return

Distributions

The distributions covered in the Carindale Property Trust 2018 Tax Statement and Tax Summary are as follows:

- the 20.10 cents per unit distribution paid on 28 February 2018
- the 20.10 cents per unit distribution paid on 31 August 2018

General Information

The information in this Tax Return Guide has been prepared to assist Australian resident individual members of Carindale Property Trust to complete their 2018 Tax Return. It does not apply to company, trust or superannuation fund members.

If you are an individual lodging an Australian Tax Return, Question 13 of your Tax Return (Supplementary Section) should be completed. The information on your Tax Statement and the notes in this Tax Return Guide will help you to answer Question 13.

If you are using myTax the distribution information should be pre-filled for you by the Australian Taxation Office (ATO). However, you should check the pre-fill information against your 2018 Tax Statement and use the information on the 2018 Tax Statement if there are any differences.

Please note that any other non-primary production trust distributions which you have derived should be added to the amounts you have received from Carindale Property Trust and the total income should be included in your Tax Return. You must report all of the assessable amounts of your distributions in your Tax Return. The tax deferred amount is generally not assessable for income tax purposes. However, it will reduce the capital gains tax (CGT) cost base of your units. If your cost base is reduced to nil you will have a capital gain to the extent that the sum of the tax deferred amounts exceed your cost base. Any such capital gain should be accounted for in your tax return.

Question 13 – Partnerships and Trusts - Tax Return (Supplementary Section)

You should include at this question the Australian interest income, Australian dividend income, franking credits and the other Australian taxable income components of your distributions. The amount of TFN withholding tax deducted from your distributions (if any) should also be included.

2. Other Important Information for Australian Resident Members

CGT Implications of the Tax Deferred Amount of Distributions

The tax deferred amount of your distributions will reduce your cost base in the units in Carindale Property Trust. This reduction will apply in calculating any capital gain or capital loss on disposal of the units for CGT purposes.

In addition, you make a capital gain (even if you do not sell your units) if the sum of the tax deferred amounts received is more than the cost base of the units at the end of the income year. The publications “Guide to Capital Gains Tax” or “Personal Investor’s Guide to Capital Gains Tax” which are available from the Australian Taxation Office provide details of the calculations required. Any such capital gain should be accounted for in your tax return.

Members Who Have Disposed of Units During the 2018 Financial Year

If you have disposed of any of your units in Carindale Property Trust during the past year, you may have made a capital gain or loss. You should obtain a copy of the publication “Personal Investor’s Guide to Capital Gains Tax” or alternatively, “Guide to Capital Gains Tax” which are available from the Australian Taxation Office and/or consult your accountant, taxation or other professional adviser. Any such capital gain or capital loss should be accounted for in your tax return.
